NEW

HALO TACO
0811-905-6868

Lem TACO memiliki daya rekat tinggi dan cocok untuk digunakan di daerah tropis dengan daya tahan terhadap berbagai kondisi (air, lembab, dan panas).

Aplikasi serbaguna

Cocok untuk iklim tropis

Cepat kering

Terbuat dari formula khusus yang membuat waktu kering menjadi cepat dan cocok dipakai untuk berbagai kebutuhan interior dan diaplikasikan pada berbagai material seperti HPL, PVC, vinyl, kayu, karet, busa, kulit, karpet, dll.

Aplikasi Serbaguna

HPL/PVC Sheet

Lantai Vinyl

Karpet

Busa

Kulit

Karet

HPL Cleaner

EFEKTIF MEMBERSIHKAN SISA LEM

DAN NODA LAINNYA PADA PERMUKAAN HPL

TACO HPL Cleaner dengan formula khusus, efektif membersihkan kotoran dan noda lem, tinta, serta noda lainnya yang melekat pada permukaan HPL.

Dapat juga digunakan untuk membersihkan noda pada permukaan lantai Vinyl, PVC Sheet dan PVC Edging.

POSTFORMING HPL

Bending Radius of 7mm

Our postforming grade laminate is crafted with high resin technology that presents a very slim yet elegant profile that leaves no room for any pointy sides due to its super flexible characteristics. Bendable up to a very small 7mm radius, our postforming grade laminate allows continuous curve to avoid the need for covering edges! Get creative when designing furniture with our postforming HPL.

LAB GRADE HPL

Anti Bacterial

Chemical Resistant

Even though all HPL is inherently hygienic due to its density and ease of clean, our Antibacterial Lab Grade Laminate provides extra protection as it is produced with a special nanosilver ion technology from Germany that is proven to inhibit bacterial growth and reduce the quantity of bacteria by 99% in 24 hours, and has been certified by Japanese Industrial Standard (JIS Z 801) - a product test for antimicrobial activity and efficacy.

Also chemical resistant, these characteristics make it perfect for use in hospitals, labs, schools, gyms and restaurants.

- TACO HPL are 1220mm x 2440mm x 0.7mm unless otherwise stated.
- TACO HPL are recommended for interior use only.
- All specifications are subject to change without prior notice.
- The samples shown are only indicative of the color shade and textures.
- Customers are advised to reconfirm the color at the time of ordering.
- Please inspect all products purchased before installation.

DISCLAIMER

TACO only covers faults in the laminate product itself, and not after it has been processed into secondary product. Color may differ slightly from samples due to different production lots and this should be considered normal.

Maintenance Manual

PRECAUTION

HARSH CHEMICALS

Harsh chemicals and acid-based cleaner such as oven cleaner, rust remover or drain cleaner may scratch and discolor the HPL surface. Any spill should be removed immediately, rinsed and wiped dry.

HOT OBJECT

Exposure to high temperature object or heat-generating appliances may damage and discolor the HPL. Use protective insulation pad between the hot surface and HPL.

SHARP OBJECT

Avoid using knives or other sharp objects directly on the HPL surface. Always use cutting/chopping boards to protect the laminate surface.

IMPACT

Excessive impact from dropping heavy objects on the HPL may cause dents, cracks or chipping.

CLEANING PROCESS

DAMP CLOTH/SPONGE

To clean the HPL surface, use a damp cloth or sponge with clean water.

DISH SOAP/MILD DETERGENT

More difficult stains such as coffee or tea can be cleaned using melamine sponge and dish soap or mild detergent.

BAKING SODA

If stain persists, use a little of baking soda and water and scrub lightly using a soft bristled brush. However, excessive scrubbing may damage the decorative surface, especially those with gloss finish.
